

# Environmental Policy Statement

Kewell Converters Ltd are committed to minimising the environmental impact of our business activities through proactive and systematic integration of environmental considerations in all aspects of our business for the combined benefit of the company, our clients and employees, the wider public and the environment.

Kewell Converters Ltd fully commits to protect the environment, by;

- Implementing and maintaining an environmental management system that follows ISO 14001:2015
- Responsibly dispose of our waste, recycling wherever practical to reduce pollution and the negative impact to the environment
- Determine compliance obligations and ensure operations are completed in accordance with them
- Consider the effects that our operations may have on the local community, and the communities where our products will be used
- Assess and, where practicable to do so, reduce the environmental impact of the company's products and services
- Investigate and review any non-conformities or incidents, and resolve the issue
- Promote environmental awareness amongst our staff, suppliers, contractors and partners
- Complete regular internal audits to evaluate fulfilment of compliance and hold an annual review of our EMS
- Continually improve the EMS to enhance environmental performance
- Ensure that directors and management are fully engaged in the management of environmental issues
- And, allocate enough resources to enable the company to achieve its environmental aims and objectives

Directors, management and staff have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day-to-day supervision of all work. All employees and subcontractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as reasonably practicable, is carried out without risk to themselves, others or the environment. This includes co-operating with management on any environment-related matter.
